

# Collibra Optimisation Services

## IMPROVE DATA GOVERNANCE & INSTIL TRUST IN YOUR DATA

Discover the power of Collibra's comprehensive suite of solutions with the help of Billigence's expert team. We empower businesses to find meaning in their data and improve business decisions. As a Collibra Partner of the Year, Silver Partner and registered reseller, Billigence has a proven track record of delivering exceptional solutions that instil trust in business data.

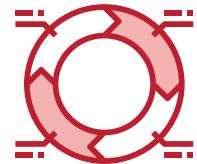

### The Benefits of our Optimisation Services

**Improve ROI**  
by increasing visibility through reporting dashboards.

**Ensure compliance**  
and adherence to data related policies and procedures.

**Streamline management**  
of operations within a centralised platform.

## Collibra Optimisation Services

We specialise in end-to-end implementations, maximising Collibra's effectiveness in managing and governing your data assets. Our suite of optimisation solutions can be utilised as a complete package or individually. Each solution is designed to be flexible, allowing it to be implemented within your existing architecture.

### Operational & Event Management

Manage your Collibra environments with automated alerting for Edge, Technical Lineage and API Integrations.

### Automated Catalog Filtering

Save time and resources by automating the filters applied to your production report catalog.

### Adoption Dashboard

Improve ROI by gaining rapid insights into the utilisation and adoption of Collibra throughout your organisation.

### DQ Integration & Dashboard

Measure how well data conforms to data quality (DQ) criteria and calculate DQ scores by evaluating rows against rules.

### Metamodel Optimisation

Improve the Collibra experience by providing your users with clear business context about your organisation's data assets.

### Personally Identifiable Information Tagging

Improve governance of sensitive data by leveraging our cutting-edge tagging capabilities.
